

## Tempe Project Update

### Rural-Lemon-Terrace Water & Sewer Line Utilities Relocation Project

You recently received a newsletter with information pertaining to future water and sewer line relocation projects to prepare for light rail. The first of these projects, the Rural-Lemon-Terrace project, received a Notice to Proceed Monday, May 2<sup>nd</sup>, and construction should begin by the end of the week. The project will begin with the replacement of water lines on Terrace Rd from Apache Blvd to Rural Rd. Sewer lines will then be replaced on Rural Rd just north of Apache Blvd, heading north to Lemon. Water and sewer lines will then be replaced along Lemon Rd.

**Traffic restrictions for these roads during construction are: one lane of traffic in each direction along Terrace Road; two lanes of traffic in each direction along Rural Road; and Lemon Road will be closed to thru traffic (open to local traffic only).**

We appreciate your patience and consideration during these relocation projects and regret any inconvenience they may cause. For comments/ concerns regarding these projects, please contact Ron Coleman, Tempe Water Utilities, (480) 858-2175 or visit us on the web at [www.tempe.gov/water](http://www.tempe.gov/water).
